

# ILLINOIS INTERNATIONAL BUSINESS CALENDAR

January 19, 2026

---

The *Illinois International Business Calendar* is published by the International Trade Association of Greater Chicago (ITA/GC). The *Calendar* is also available on our website: [www.itagc.org](http://www.itagc.org). It is published every Friday, and available at no charge.

**Inclusion Policy:** As a public service to the international business community, we publish a listing of **international business events** for which we receive **written** notification, preferably by e-mail ([info@itagc.org](mailto:info@itagc.org)). Any organization may submit events that would be of interest to **and are open to** the Illinois international business community. There is no charge. All calendar listings are subject to the editor's discretion. Inclusion of an event does not imply endorsement by any of the sponsoring organizations.

Founded in 1978, the International Trade Association of Greater Chicago (ITA/GC) is a not-for-profit, 501(c)6 voluntary business association dedicated to promoting international commerce in all its forms. The ITA/GC provides a forum for the exchange of practical information and insight within the international business community. Members share interests in import and export matters, in international investment, alliance, and licensing opportunities, and – in the broader sense – doing business across the world.

The ITA/GC's focus is on practicality: on building knowledge and enabling relationships that help people do international business. While our scope of interest is diverse – all aspects of trading and commercial activity across all geographies and all industries – our work is simple: **to help others gain understanding that is personal, current and actionable.**

### Of Note:

**U.S. withdraws from 66 International Organizations:** In a January 7 [presidential memorandum](#), the White House announced it had determined that “it is contrary to the interests of the United States to remain a member of, participate in, or otherwise provide support to” 66 international organizations and agreements and ordered relevant U.S. agencies to withdraw from them immediately. The final version is mostly consistent with business advocacy in favor of preserving U.S. membership in organizations involved in standard setting and commercial dispute resolution.

**Industry-level Detail Provides New Insights on the Growing Space Economy:** The U.S. Census Bureau released January 13 the first ever [Quarterly Workforce Indicators](#) (QWI) at the national industry level. These data will allow users to view and download economic indicators such as employment, job creation, earnings and other measures of employment flows for six-digit North American Industry Classification System (NAICS) codes. In 2024, nearly one-half of all new hires in the Space Economy cluster were under the age of 35.

**Brazil Surpasses US as Top Global Beef Producer:** Citing a Reuters' report, [Farm Policy News](#) writes, “Brazil surpassed the U.S. as the world's top beef producer last year, according to market estimates, after the South American country beat output forecasts by hundreds of thousands of tons, easing a global supply squeeze and helping limit a surge in meat prices.” If the official numbers confirm market estimates, 2025 will be the first year that Brazil's output will have surpassed U.S. production, which fell 3.9% to 11.8 million tons in 2025, according to USDA estimates, following years of drought.

**Cyberattacks on Logistics Are Set to Double in 2026:** A [new report](#) from Everstream Analytics finds that cyberattacks targeting logistics companies are expected to double in 2026, following several years of sharp growth. The research tracks incidents affecting carriers, ports, 3PLs, and other logistics providers and shows attacks are up nearly 1,000% since 2021. [Article appeared in [Supply Chain 24/7](#)]

**International Community Agrees Way Forward on Global Minimum Tax Package:** The 147 countries and jurisdictions working together within the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting (BEPS) have agreed on key [elements of a package](#) that charts a course forward for the coordinated operation of global minimum tax arrangements in the context of a digitalized and globalized economy. Following months of intense negotiations, the comprehensive package for a [“side by side” arrangement](#) announced today represents a significant political and technical agreement which will set the foundation for stability and certainty in the international tax system.

**Restoring American Semiconductor Manufacturing Leadership through an Agreement on Trade & Investment with Taiwan:** According to a Commerce Department [press release](#), on January 15 the American Institute in Taiwan and the Taipei Economic and Cultural Representative Office in the United States signed “a historic trade deal that will drive a massive reshoring of America’s semiconductor sector. This unprecedented commitment will strengthen U.S. economic resilience, create high-paying jobs, and bolster national security.” The agreement establishes a strategic economic partnership between the United States and Taiwan to decisively strengthen U.S. domestic semiconductor supply chains and secure America’s technological and industrial leadership.

**DFC and IHC Forge New Investment Partnership to Drive Strategic Capital:** The U.S. International Development Finance Corporation (DFC) [announced](#) a landmark collaboration on January 14 with International Holding Company (IHC) aimed at accelerating private-sector investment in strategic markets and projects of mutual interest. This collaboration focuses on priority sectors such as critical minerals, energy infrastructure, logistics, pharmaceuticals and healthcare manufacturing, information and communication technology, food security, and other advanced technologies.

**Who Has the World’s Oil, and Who Can Actually Produce It:** Following the U.S. President’s escapade in Venezuela, [Visual Capitalist](#) compiled a chart comparing proven oil reserves and daily production across the world’s top oil producers, revealing stark contrasts between output-heavy producers and those sitting on vast untapped resources. The U.S. produces oil at almost twice the rate of major competitors Russia and Saudi Arabia, thanks to its booming shale industry.

**Chicago 2050: A Plan for Economic Growth & Jobs:** World Business Chicago has just released this updated report from its 2012 version, laying out an updated set of priority industries and strategies for growth, backed by rigorous analysis that helped identify industries based on economic impact and job density. The report is available for free download [here](#).

**CBP Mandates Electronic Refunds Effective February 6:** As reported in Barnes Richardson’s [Trade Express Highlights](#), U.S. Customs and Border Protection (CBP) will [issue all refunds electronically](#), effective February 6, 2026, except where a valid waiver applies. The transition away from paper checks applies to all importers, brokers, filers, sureties, service providers, facility operators, foreign-trade zone operators and carriers, and any designated third parties listed on CBP Form 4811 as outlined in the [interim final rule](#).

**NOW OPEN: Registration for EXIM 2026 Annual Conference:** The Export-Import Bank of the United States (EXIM) has officially opened [registration](#) for their 2026 Annual Conference, taking place on April 29-30 in Washington, D.C. This year’s program will center on the Bank’s “Buy American, Build the Future” initiative, and the four strategic priorities to carry out President Trump’s vision of America’s reindustrialization: Bringing EXIM Back to Basics to put American Jobs First; American Energy Dominance; Supply Chain Security; Industries of the Future.

**Beyond the Headlines: How Trade Agreements Are Reshaping Business:** A recently released [McKinsey article](#) notes that while the recent proliferation of regional and bilateral trade agreements are moderating the impact of U.S. tariffs, they are also reducing non-tariff barriers and altering trade flows. The agreements, combined with industrial-policy measures, create significant opportunities for companies to access new markets.

**All of the World’s Oil Reserves by Country:** This visualization ([Visual Capitalist](#)) ranks countries by the size of their proven oil reserves at the end of 2024. The data comes from OPEC’s [Annual Statistical Bulletin 2025](#). Just four countries control more than half of the world’s proven oil reserves. Despite the energy transition, fossil fuels still account for [nearly 70% of global energy demand](#).

**McKinsey’s Most-read Geopolitics Articles in 2025:** The world’s business landscape has entered an age of strategic complexity. In 2025, [McKinsey’s most-read Geopolitics articles](#) reflected how tariffs, trade realignments, and regionalization are rewriting the rules of global business. Success now depends on agility, diversification, and the ability to see opportunity in uncertainty.

**20,000 Employees Left USDA in First Half of 2025:** Reuters' Leah Douglas [reported](#) that "more than 20,300 employees left the U.S. Department of Agriculture in the first five months of the administration of President Donald Trump, about a fifth of staff, according to a report from the agency's inspector general." "Losing nearly 20% of all USDA staff weakens the department's ability to respond to challenges facing our farmers, leaves our food supply chains more vulnerable to threats like New World Screwworm and avian flu, and undermines efforts to drive the rural economy forward," said [Senator Amy Klobuchar](#), the top Democrat on the Senate Agriculture Committee.

**USMCA/NAFTA:** The Peterson Institute for International Economics has conducted extensive research on the costs, benefits, and opportunities of trade among the United States, Canada, and Mexico. It has published a [Guide](#) to explain why the USMCA remains at the core of the three countries' relationship, what's at stake in many different aspects of their interdependence, and possible paths forward for negotiators to try to resolve. Concomitantly, it has a [page](#) that provides updates on the negotiations.

**Country Commercial Guides Updated:** The U.S. Department of Commerce's [Country Commercial Guides](#) have been updated. For each country, the Guide includes current information on: Doing Business in; Leading Sectors for US Exports & Investment; Customs, Regulations & Standards; Selling US Products & Services; Digital Economy; Business Travel; Investment Climate Statement. There is no charge to access & download the report(s).

**WTO Issues Updated Compendium of WTO Agreements:** An update of the WTO's legal compendium has been published bringing together all of the WTO's agreements into one volume. The book, titled [The WTO Agreements: The Marrakesh Agreement Establishing the World Trade Organization and its Annexes](#), includes for the first time the text of the Agreement on Fisheries Subsidies, which entered into force on 15 September 2025.

**SIDO Announces New-to-Export Training:** The State International Development Organization (SIDO) has announced a practical approach to export training that will provide you with expert advice, guidance and resources to develop a strategy and plan to begin exporting. SIDO's program is flexible in addressing your needs and intentional in maximizing your time commitment. It includes 10 hours of virtual training over four weeks. Details are [here](#).
